

**Our topic for Spring Term 1 is:**

**Stunning starter:** Tapping into Terling walk

**Magnificent middle:** Alien designing

**Fantastic finale:** Treasure hunt

### English

We will be learning traditional stories, and use those to write our own stories. We will also be writing letters.

### Maths

We will be using multiplication and division to begin the half-term, and then move onto fractions. We will learn how to measure length, height, mass, capacity and temperature.

### Science

Our science focus is living things and their habitats. We will identify and name a variety of common animals, and name a variety of common animals that are carnivores, herbivores and omnivores. We will name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.

# The Aliens Are Coming!

### Geography

As part of our topic we will study the UK and its countries using maps and atlases. We will use basic vocabulary to refer to the physical and human features of the UK. We will continue to use compass directions and locational and directional language. We will use aerial photographs to recognise landmarks and basic human and physical features, and design a simple map that has symbols in a key. Before this we will use fieldwork skills to study the geography of our school and its grounds and the key human and physical features of Terling.

### PSHE

We will be thinking about how we can develop and maintain healthy relationships, and how to ask for help.
