

Our topic for Summer Term 1 is:

Paws, claws and whiskers!

Stunning starter: Watching 'Zootopia'

Magnificent middle: Visit to Colchester Zoo

Fantastic finale: Dear Zoo picnic

PSHE

We will be thinking about living in the wider world.

English

We will be reading stories written by the same author, and will write fictional stories inspired by these books. We will write animal poetry, and for our non-fiction focus we will be writing non-chronological reports about animals that we have researched.

Science

Our science focus is animals including humans. We will think about what all animals have in common and we will also look at their differences using our knowledge of habitats to help. We will think about why animals are camouflages, and we will also explore food chains.

Maths

In Year 1 we will be learning about length, height, weight and volume as well as place value and the four operations.

In Year 2 we will be thinking about length, height, capacity, volume, mass, temperature as well as 3D shapes

Art and DT

Our end goal for Art and DT will be to make animals masks through our study of animal patterns and furs. To do this, we will use the following skills: drawing, collage, painting and sculpture.
