

# Year 3/4 Topic: The Iron Giant

Our new topic is all about The Iron Man by Ted Hughes. We will be reading sections of the book and also watching the film, The Iron Giant. We will be making our own Iron Giants out of different boxes and models. We will then use these to create our own Movie Trailers. Parents will be invited in to come and see our films during our Film Premier.

In English we will be writing our own stories based in imaginary words. We will also be going through all the spelling, grammar and punctuation objectives for Year 3 and 4.

In Maths, we will be multiply using formal written methods, adding and subtracting both formally and with mental methods and we will be learning about fractions and the decimal equivalents.

In Science we will be learning about magnets and electricity.

Our R.E focus will be learning about the Servant King. We will also focus on the Easter story as Easter approaches.

Our PE focus will be net/ball/wall games. We will be going outside so please make sure you have a suitable kit to keep you warm.
