1. Aims

The aims of relationships and sex education (RSE) at our school are to:

- › Provide a framework in which sensitive discussions can take place
- › Prepare pupils for puberty, and give them an understanding of sexual development and the importance of health and hygiene
- › Help pupils develop feelings of self-respect, confidence and empathy
- › Create a positive culture around issues of sexuality and relationships
- › Teach pupils the correct vocabulary to describe themselves and their bodies

Our vision statement makes clear our intent to 'celebrate the uniqueness of every child', and to 'support them to flourish and shine in all they do, preparing them for life's journey'. A robust, clear and imaginatively delivered, engaging RSE allows us to provide this for all.

2. Statutory requirements

As a maintained primary school, we must provide relationships education to all pupils as per section 34 of the [Children and Social Work Act 2017](#).

However, we are not required to provide sex education but we do need to teach the elements of sex education contained in the science curriculum.

In teaching RSE, we must have regard to [guidance](#) issued by the secretary of state as outlined in section 403 of the [Education Act 1996](#).

At Terling CofE Primary School, we teach RSE as set out in this policy.

3. Policy development

This policy has been developed in consultation with staff, pupils and parents. The consultation and policy development process involved the following steps:

1. Review – a member of staff or working group pulled together all relevant information including relevant national and local guidance
2. Staff consultation – all school staff were given the opportunity to look at the policy and make recommendations
3. Parent/stakeholder consultation – parents and any interested parties were invited to attend a meeting about the policy
4. Pupil consultation – we investigated what exactly pupils want from their RSE
5. Ratification – once amendments were made, the policy was shared with governors and ratified

4. Definition

Within this policy, as in the DfE guidance, **Relationships Education** is defined as teaching about the fundamental building blocks and characteristics of positive relationships, with particular reference to respectful friendships, family relationships, and relationships with other children and with adults, including online.

For the purpose of this policy, **Health Education** is defined as teaching pupils about physical health and mental wellbeing, focusing on recognising the link between the two and being able to make healthy lifestyle choices

Sex Education is defined as teaching children how human reproduction occurs, including how a baby is conceived and born. This draws on knowledge of the human life cycle set out in the national curriculum for science. For the purposes of this policy, we specifically identify any non-statutory Sex Education that falls outside of Science and those related elements (the physical changes associated with puberty) within statutory Health Education.

RSE is not about the promotion of sexual activity.

5. Curriculum

5.1 Statutory RSE Curriculum Content

Our RSE curriculum is embedded within our PSHE curriculum and is set out as per Appendix 1, however, this will be adapted when necessary.

We have developed the curriculum considering the age, needs and feelings of pupils. If pupils ask questions outside the scope of this policy, teachers will respond in an age appropriate manner so they are fully informed and do not seek answers online.

Key objectives of the statutory Relationships Education curriculum are outlined below:

Families and people who care for me

Children should know:

- that families are important for children growing up because they can give love, security and stability.
- the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.

- that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.
- that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.
- that marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong.
- how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.

Caring friendships

Children should know:

- how important friendships are in making us feel happy and secure, and how people choose and make friends.
- the characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties.
- that healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.
- that most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to physically or verbally aggressive behaviour is never right.
- how to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed.

Respectful relationships

Children should know:

- the importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs.
- practical steps they can take in a range of different contexts to improve or support respectful relationships.
- the conventions of courtesy and manners.
- the importance of self-respect and how this links to their own happiness.
- that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.
- about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help.
- what a stereotype is, and how stereotypes can be unfair, negative or destructive.
- the importance of permission-seeking and granting in relationships with friends, peers and adults.

Online relationships

Children should know:

- that people sometimes behave differently online, including by pretending to be someone they are not.
- that the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous.

- the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them.
- how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met.
- how information and data is shared and used online.

Being safe

Children should know:

- what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context).
- about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe.
- that each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.
- how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know.
- how to recognise and report feelings of being unsafe or feeling bad about any adult and others.
- how to ask for advice or help for themselves or others, and to keep trying until they are heard.
- how to report concerns or abuse, and the vocabulary and confidence needed to do so.
- where to get advice e.g. family, school and/or other sources.

These areas of learning are taught within the context of family life, taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

5.2 Statutory Science Curriculum Content

Early Years Foundation Stage children learn about life cycles as well as watching chicks hatch. Through ongoing personal, social and emotional development, they develop the skills to form relationships and think about relationships with others.

In Key Stage 1 (years 1 – 2) children learn:

- To identify, name, draw and label the basic parts of the human body and say which part of the body is to do with each sense
- To notice that animals, including humans, have offspring which grow into adults
- To find out about and describe the basic needs of animals, including humans, for survival (water, food and air)
- To describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene

In Key Stage 2 (years 3 – 6) children learn:

- To identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat
- To identify that humans and some other animals have skeletons and muscles for support, protection and movement
- To describe the simple functions of the basic parts of the digestive system in humans
- To identify the different types of teeth in humans and their simple functions

- To describe the life process of reproduction in some plants and animals
- To describe the changes, as humans develop to old age
- To identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood
- To recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function
- To describe the way nutrients and water are transported within animals, including humans
- To recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents

5.1 Non-Statutory Sex Education

As part of statutory Health Education, children are taught in an age appropriate way about puberty and the associated physical and emotional changes from Year 4 onwards. As part of the science curriculum, children learn in Year 2 that animals, including humans, have offspring which grow into adults. In Year 5, they describe the changes as humans develop to old age and about how reproduction occurs in some plants and animals.

Alongside this, children in Year 4 are taught to recognise the signs and changes that may occur during the onset of puberty, in preparation for further lessons on this subject which also focus on emotional changes and menstruation in Year 4. These lessons form part of the statutory requirements for Health Education.

The DfE guidance 2019 also recommends that all primary schools have a sex education programme tailored to the age and the physical and emotional maturity of pupils, and this should include how a baby is conceived and born. Although sex education is not compulsory in primary schools, we believe children should understand the facts about human reproduction before they leave primary school. We therefore provide some non-statutory sex education, covering how human reproduction and conception occurs. This is taught in Years 4, 5 and 6. Children are taught:

- that for a baby to begin to grow, part comes from a mother and part comes from a father; that in most animals including humans the baby grows inside the mother
- that when a sperm and egg meet, this is called conception; that conception usually occurs as a result of sexual intercourse, and what sexual intercourse means
- how a baby develops in the womb and how babies are born

We believe that teaching this additional content to pupils will ensure that they are better prepared for transition to secondary school and also support their personal and social development as they grow into young adults. As is legally prescribed, parents have a right to withdraw their children from these additional non-statutory sex education lessons – please see the relevant section within this policy in regard to this process.

The resources we use when teaching the non-statutory sex education units are available for parents/carers to view on request to the PHSE Co-ordinator.

For more information about our curriculum, see our curriculum map in Appendix 1.

6. Delivery of RSE

RSE is taught within the personal, social, health and economic (PSHE) education curriculum. Biological aspects of RSE are taught within the science curriculum, and other aspects are included in religious education (RE). Trained health professionals may, at times, be brought in to deliver aspects of the curriculum.

Relationships education focuses on teaching the fundamental building blocks and characteristics of positive relationships including:

- Families and people who care for me
- Caring friendships
- Respectful relationships
- Online relationships

➤ Being safe

Following guidance provided by the PSHE Association, the school will deliver sex education lessons in the Summer term to Year 6 pupils.

Students will learn:

- to identify the links between love, committed relationships and conception
- what sexual intercourse is, and how it can be one part of an intimate relationship between consenting adults
- how pregnancy occurs i.e. when a sperm meets an egg and the fertilised egg settles into the lining of the womb
- that pregnancy can be prevented with contraception
- about the responsibilities of being a parent or carer and how having a baby changes someone's life.

Lesson plans and resources will be shared with parents and carers before lessons take place.

For more information about our RSE curriculum, see Appendices 1 and 2.

These areas of learning are taught within the context of family life taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBT+ parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

7. Roles and responsibilities

7.1 The governing board

The governing board will approve the RSE policy, and hold the headteacher to account for its implementation.

7.2 The headteacher

The headteacher, in conjunction with the PSHE lead, is responsible for ensuring that RSE is taught consistently across the school, and for managing requests to withdraw pupils from non-statutory components of RSE (see section 8). The headteacher, along with the PSHE lead, will ensure this policy is reviewed with parents annually.

7.3 Staff

Staff are responsible for:

- Delivering RSE in a sensitive way
- Modelling positive attitudes to RSE
- Monitoring progress
- Responding to the needs of individual pupils
- Responding appropriately to pupils whose parents wish them to be withdrawn from the non-statutory components of RSE
- Sharing RSE resources with parents in advance of teaching the lessons. This also allows for parents to have a shared understanding of the language which is used in lessons.

Class teachers do not have the right to opt out of teaching RSE. Staff who have concerns about teaching RSE are encouraged to discuss this with the headteacher.

7.4 Pupils

Pupils are expected to engage fully in RSE and, when discussing issues related to RSE, treat others with respect and sensitivity.

8. Confidentiality

In our school we have a clear and explicit Confidentiality Policy, which is shared with staff, pupils and parents/carers. This Policy is communicated to parents/carers on the Symphony Learning Trust website. The policy states that:

- Staff are unable to offer absolute confidentiality.
- We will reassure children that staff will act in their best interests and that this may involve sharing information if the child is at risk of harm.
- Children will be told if information is to be shared (unless the child is very young or has significant special needs) and will be offered appropriate support.

Professionals, such as school nurses and youth workers, are bound by their professional codes of conduct when offering advice and guidance to individual pupils. This often involves offering a greater level of confidentiality to children than school staff are able to give. However, in a classroom and other teaching situations when they are contributing to our planned RSE programme, they will follow the school's Confidentiality Policy. Health professionals will ensure that children are aware of the boundaries of confidentiality when beginning work with them.

9. Safeguarding and Child Protection

We recognise that because effective RSE may alert children to what is appropriate and inappropriate sexual behaviour, there is an increased possibility that a disclosure relating to abuse may be made. All staff are aware of the Safeguarding and Child Protection procedures and will report the disclosure to the designated person for child protection immediately.

10. Inclusion

We understand the importance of ensuring that all children in our school receive their entitlement to RSE. We will carefully consider special educational needs or disability, gender, sexual orientation and age, nationality, vulnerability, religion, cultural and linguistic background when planning and delivering RSE.

In relation to nationality, sexual orientation, religion and cultural diversity, we value the different backgrounds of our pupils and, in addressing different views and beliefs, seek to promote tolerance and understanding.

In order to ensure the RSE Curriculum meets the needs of all:

- We will not promote one particular lifestyle over another.
- We will not seek to gain consensus, but will accept and celebrate difference.
- We will encourage respect and discourage abuse and exploitation.
- We will not ask children to represent the views of a particular religious or cultural group to their peers, unless they choose to do so.

In relation to those with special educational needs or disability, we will review our RSE programme to ensure that provision is made for those with additional needs.

We will consider:

- their level of vulnerability (including safeguarding)
- their need to learn and demonstrate appropriate behaviour
- their need to develop self-esteem and positive body image
- the need to involve all staff, including ancillary staff and carers, in policy development, planning and training the management of personal care
- clarity about sources of support for pupils

11. Parents' right to withdraw

Parents do not have the right to withdraw their children from relationships education.

Parents have the right to withdraw their children from the non-statutory components of sex education within RSE.

Requests for withdrawal should be put in writing using the form found in Appendix 3 of this policy and addressed to the headteacher.

Alternative work will be given to pupils who are withdrawn from sex education.

12. Training

Staff are trained on the delivery of RSE as part of their induction and it is included in our continuing professional development calendar.

The headteacher will also invite visitors from outside the school, such as school nurses or sexual health professionals, to provide support and training to staff teaching RSE.

13. Monitoring arrangements

The delivery of RSE is monitored by the Headteacher through:

- Book and planning scrutiny
- Learning walks
- Pupil perception
- Parent/carer feedback

Pupils' development in RSE is monitored by class teachers as part of our internal assessment systems.

This policy will be reviewed by the PSHE lead. At every review, the policy will be approved by the governing body.

Appendix 1: Curriculum map

	Autumn: Relationships			Spring: Living in the wider world			Summer: Health and Wellbeing		
	Families and friendships	Safe relationships	Respecting ourselves and others	Belonging to a community	Media literacy and digital resilience	Money and work	Physical health and Mental wellbeing	Growing and changing	Keeping safe
Year 1	Roles of different people; families; feeling cared for	Recognising privacy; staying safe; seeking permission	How behaviour affects others; being polite and respectful	What rules are; caring for others' needs; looking after the environment	Using the internet and digital devices; communicating online	Strengths and interests; jobs in the community	Keeping healthy; food and exercise, hygiene routines; sun safety	Recognising what makes them unique and special; feelings; managing when things go wrong	How rules and age restrictions help us; keeping safe online
Year 2	Making friends; feeling lonely and getting help	Managing secrets; resisting pressure and getting help; recognising hurtful behaviour	Recognising things in common and differences; playing and working cooperatively; sharing opinions	Belonging to a group; roles and responsibilities; being the same and different in the community	The internet in everyday life; online content and information	What money is; needs and wants; looking after money	Why sleep is important; medicines and keeping healthy; keeping teeth healthy; managing feelings and asking for help	Growing older; naming body parts; moving class or year	Safety in different environments; risk and safety at home; emergencies
Year 3	What makes a family; features of family life	Personal boundaries; safely responding to others; the impact of hurtful behaviour	Recognising respectful behaviour; the importance of self-respect; courtesy and being polite	The value of rules and laws; rights, freedoms and responsibilities	How the internet is used; assessing information online	Different jobs and skills; job stereotypes; setting personal goals	Health choices and habits; what affects feelings; expressing feelings	Personal strengths and achievements; managing and reframing setbacks	Risks and hazards; safety in the local environment and unfamiliar places
Year 4	Positive friendships, including online	Responding to hurtful behaviour; managing confidentiality; recognising risks online	Respecting differences and similarities; discussing difference sensitively	What makes a community; shared responsibilities	How data is shared and used	Making decisions about money; using and keeping money safe	Maintaining a balanced lifestyle; oral hygiene and dental care	Physical and emotional changes in puberty; external genitalia; personal hygiene routines; support with puberty	Medicines and household products; drugs common to everyday life
Year 5	Managing friendships and peer influence	Physical contact and feeling safe	Responding respectfully to a wide range of people; recognising prejudice and discrimination	Protecting the environment; compassion towards others	How information online is targeted; different media types, their role and impact	Identifying job interests and aspirations; what influences career choices; workplace stereotypes	Healthy sleep habits; sun safety; medicines, vaccinations, immunisations and allergies	Personal identity; recognising individuality and different qualities; mental wellbeing	Keeping safe in different situations, including responding in emergencies, first aid and FGM
Year 6	Attraction to others; romantic relationships; civil partnership and marriage	Recognising and managing pressure; consent in different situations	Expressing opinions and respecting other points of view, including discussing topical issues	Valuing diversity; challenging discrimination and stereotypes	Evaluating media sources; sharing things online	Influences and attitudes to money; money and financial risks	What affects mental health and ways to take care of it; managing change, loss and bereavement; managing time online	Human reproduction and birth; increasing independence; managing transition	Keeping personal information safe; regulations and choices; drug use and the law; drug use and the media

Appendix 2: By the end of primary school pupils should know

TOPIC	PUPILS SHOULD KNOW
Families and people who care about me	<ul style="list-style-type: none"> • That families are important for children growing up because they can give love, security and stability • The characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives • That others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care • That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up • That marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong • How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed
Caring friendships	<ul style="list-style-type: none"> • How important friendships are in making us feel happy and secure, and how people choose and make friends • The characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties • That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded • That most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right • How to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed

TOPIC	PUPILS SHOULD KNOW
Respectful relationships	<ul style="list-style-type: none"> • The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs • Practical steps they can take in a range of different contexts to improve or support respectful relationships • The conventions of courtesy and manners • The importance of self-respect and how this links to their own happiness • That in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority • About different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help • What a stereotype is, and how stereotypes can be unfair, negative or destructive • The importance of permission-seeking and giving in relationships with friends, peers and adults
Online relationships	<ul style="list-style-type: none"> • That people sometimes behave differently online, including by pretending to be someone they are not • That the same principles apply to online relationships as to face-to face relationships, including the importance of respect for others online including when we are anonymous • The rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them • How to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met • How information and data is shared and used online
Being safe	<ul style="list-style-type: none"> • What sorts of boundaries are appropriate in friendships with peers and others (including in a digital context) • About the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe • That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact • How to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know • How to recognise and report feelings of being unsafe or feeling bad about any adult • How to ask for advice or help for themselves or others, and to keep trying until they are heard • How to report concerns or abuse, and the vocabulary and confidence needed to do so • Where to get advice e.g. family, school and/or other sources

TOPIC	PUPILS SHOULD KNOW
Intimate and sexual relationships, including sexual health	<ul style="list-style-type: none"> • How to recognise the characteristics and positive aspects of healthy one-to-one intimate relationships, which include mutual respect, consent, loyalty, trust, shared interests and outlook, sex and friendship • That all aspects of health can be affected by choices they make in sex and relationships, positively or negatively, e.g. physical, emotional, mental, sexual and reproductive health and wellbeing • The facts about reproductive health, including fertility and the potential impact of lifestyle on fertility for men and women • That there are a range of strategies for identifying and managing sexual pressure, including understanding peer pressure, resisting pressure and not pressurising others • That they have a choice to delay sex or to enjoy intimacy without sex • The facts about the full range of contraceptive choices, efficacy and options available • The facts around pregnancy including miscarriage • That there are choices in relation to pregnancy (with medically and legally accurate, impartial information on all options, including keeping the baby, adoption, abortion and where to get further help) • How the different sexually transmitted infections (STIs), including HIV/AIDs, are transmitted, how risk can be reduced through safer sex (including through condom use) and the importance of and facts about testing • About the prevalence of some STIs, the impact they can have on those who contract them and key facts about treatment • How the use of alcohol and drugs can lead to risky sexual behaviour • How to get further advice, including how and where to access confidential sexual and reproductive health advice and treatment

Appendix 3: Parent/carers form: withdrawal from sex education within RSE

TO BE COMPLETED BY PARENT/CARER			
Name of child		Class	
Name of parent/carers		Date	
Reason for withdrawing from sex education within relationships and sex education			
Any other information you would like the school to consider			
Parent signature			

TO BE COMPLETED BY THE SCHOOL
